# Vinca Minor

## Hardy Myrtle Periwinkle

**PROMPT SHIPMENT**—Orders up to 2,500 shipped in 24 hours.

Best to order Vinca Minor for March or early summer delivery. During April and May the tender new growth is injured in handling and makes shipping and transplanting hazardous at this time of year. Vinca Minor transplants better when the new growth is maturing and we ship the vast majority of our orders during June and July. We guarantee safe delivery in summer months.

Experience has taught us that Vinca Minor is the best, most cosmopolitan ground cover, adapting itself to all soils and locations. Each year, there is a great demand for this little plant with its beautiful blue flowers and waxy evergreen foilage.

Our Vinca is clean, healthy, well rooted clumps of a standard size as offered below. We can, however, quote you on any size clump you require.

The plants weigh 100 pounds per thousand packed. You can calculate the exact cost delivered to your place.

	Per 100	Per 1000
Standard 18 to 24 stem clumps.....	3.00	22.40
L. O. Grade, 5 to 8 stem clump.....		12.50
